

MAULIK TANNA

PRODUCT OPERATIONS MANAGER

📞 +91-7021873585 ✉️ [mauliktanna.com](mailto:tannamaulik7498@gmail.com) 📧 tannamaulik7498@gmail.com 🌐 [maulik-tanna](https://maulik-tanna.com)

SUMMARY

Product Operations Manager with 5.6 years building client-facing ops systems from 0→1 - owning discovery, BRD writing, solution configuration, go-live, and post-sales feedback loops across a **25+ module B2B SaaS platform**. Served **100+ enterprise clients** including Aditya Birla Group, Vadilal, and Wagh Bakri, powering **1,000+ daily active workflows**. Built **20+ POCs** for pre-sales prospects and managed the full post-sales cycle across manufacturing, FMCG, logistics, events, and HR. Hands-on with AI/LLM tools and no-code automation platforms.

SKILLS

Product Ops: Feedback Loop Design, Implementation Playbooks, Process Standardisation, Release Tracking, OKRs
Discovery & Requirements: Workflow Mapping, BRD/Spec Writing, Client Discovery, Journey Mapping, Business Analysis
AI & Data: LLMs (OpenAI, Claude, Gemini), RAG, Prompt Engineering, No-Code/Low-Code Workflow Automation, SQL
Tools & Technical: Jira, Notion, Confluence, Figma, Miro, Amplitude, React/Next.js (familiar), Supabase

EXPERIENCE

Product Operations Manager

July 2022 – March 2026

Neome.ai - B2B Workflow Automation SaaS (Seed-stage, 100+ enterprise clients)

India

- **Key clients:** Aditya Birla Group, Vadilal, Wagh Bakri, Nexzu Mobility, Esprit Stones
- **Built Product Ops from 0→1:** Sole owner of end-to-end client delivery for **100+ enterprise and SME accounts** across manufacturing, FMCG, logistics, and services - managed the full lifecycle from workflow discovery and spec writing through configuration, go-live, and ongoing relationship management.
- **Voice-of-customer system:** Designed a recurring feedback loop across accounts, categorising signals by frequency and impact into structured product briefs - directly influencing feature prioritisation and driving a reusable component library that **cut implementation cost by 50%**.
- **Implementation playbook:** Standardised the delivery methodology with reusable workflow templates, onboarding checklists, and per-industry configuration docs - reducing per-client overhead and maintaining consistent go-live quality across concurrent accounts.
- **Cross-functional programme management:** Coordinated delivery across product, engineering, and client stakeholders; tracked dependencies, flagged blockers early, and translated complex manual processes into BRDs used directly by engineering.
- **Workflow discovery & requirements:** Ran discovery sessions with client operations, IT, and leadership teams across **100+ accounts** - translated complex manual processes into functional specs that engineering used directly to build and configure the platform.
- **International operations:** Extended delivery to international FMCG clients - managed remote discovery, cross-timezone coordination, and go-live with no on-site presence, validating that ops systems scaled across geographies.
- **Outcomes:** Compliance **40% → 90%+**, order processing **5x faster**, **85%+** efficiency gains across operations, full digitisation with **24/7 monitoring** across manufacturing deployments.

Quality Assurance Analyst

Oct 2020 – June 2022

Wolters Kluwer India

Remote

- Reduced release bugs by **25%**, increased test coverage by **20%**, and cut testing cycle time by **30%** through automation and process improvements - recognised with Employee of the Month for **95% test coverage** and **15% QA efficiency** gain.

KEY IMPACT PROJECTS

- **FMCG Field Operations** - Built and scaled workflow system used by **800+ field agents**; compliance **~40% → 90%+**, follow-up **12x faster**, order processing **5x faster**, **100%** order accuracy.
- **Manufacturing Process Automation** - Replaced manual production and inventory tracking with a real-time automated system; **85%** efficiency gain, **90%** error reduction, full digitisation, **24/7** monitoring.
- **International FMCG Clients** - Delivered end-to-end implementation for international clients managing remote discovery, cross-timezone coordination, and go-live with no on-site presence.

EDUCATION

K.J. Somaiya College of Engineering, Mumbai

Bachelor of Technology in Computer Science

June 2016 – June 2020

CGPA: 8.5/10.0
