SUMMARY

Solution Engineer with 5.6 years owning the full client-facing technical cycle - pre-sales discovery, POC delivery, solution design, and post-sales implementation - across a **25+ module B2B SaaS platform** serving **100+ enterprise clients** in manufacturing, FMCG, logistics, events, and HR. Comfortable translating complex technical solutions for both engineering leads and business decision-makers in the same room. Hands-on with AI/LLM workflows and no-code automation platforms, with a strong instinct for scoping what is feasible and what will land with enterprise buyers.

SKILLS

Pre-Sales & Solutions: Discovery & Qualification, POC Design & Delivery, Solution Engineer, Technical Proposals, Demo Building, Pilot Scoping
Discovery & Requirements: BRD/Spec Writing, Workflow Mapping, Stakeholder Interviews, Journey Mapping, User Stories, Acceptance Criteria
AI & Technical: LLMs (OpenAI, Claude, Gemini), RAG, Prompt Engineering, APIs, No-Code/Low-Code Workflow Automation, NeoQL, SQL
Tools: Jira, Notion, Confluence, Figma, Miro, Amplitude, React/Next.js (familiar), Supabase

EXPERIENCE

Solution Engineer

July 2022 – March 2026

Neome.ai - B2B Workflow Automation SaaS (Seed-stage, 100+ enterprise clients)

India

- **Key clients:** Aditya Birla Group, Vadilal, Wagh Bakri, Nexzu Mobility, Esprit Stones, Maniarr Khakhra
- **Pre-sales discovery & POC:** Led discovery sessions with operations, IT, and C-suite stakeholders across prospects - built **20+ tailored POCs** in Neome Studio enabling decision-makers to evaluate the platform against their real use cases before signing; qualified requirements and scoped feasibility end-to-end.
- **Solution design & proposals:** Translated complex client requirements into solution Engineer documents, BRDs, and implementation proposals - defining scope, configuration approach, and success criteria used directly by engineering and the sales team.
- **Technical implementation:** Hands-on delivery using NeoQL, form builders, and automation logic - bridging what clients asked for and what was feasibly deliverable on the stack across manufacturing, FMCG, logistics, events, HR, and CRM verticals.
- **Reusable asset library:** Built **30+ workflow templates and demo configurations** spanning CRM, field ops, HR, and approvals - enabling faster POC delivery across new prospects and **cutting implementation cost by 50%**.
- **Client feedback loop:** Synthesised feature gaps and objections from pre- and post-sales cycles into structured product briefs - directly influencing platform prioritisation and reducing friction in future deals.
- **Scale & international:** Managed up to **10 concurrent accounts**; extended delivery to international FMCG clients with remote discovery, cross-timezone coordination, and go-live with no on-site presence.

Quality Assurance Analyst

Oct 2020 – June 2022

Wolters Kluwer India

Remote

- Reduced release bugs by **25%**, increased test coverage by **20%**, and cut testing cycle time by **30%** through automation and process improvements - recognised with Employee of the Month for **95% test coverage** and **15% QA efficiency** gain.

KEY IMPACT

- **FMCG Field Operations:** Built and scaled workflow system used by **800+ field agents**; compliance $\sim 40\% \rightarrow 90\%+$, follow-up **12x faster**, order processing **5x faster**, **100%** order accuracy.
- **Manufacturing Process Automation:** Replaced manual production and inventory tracking with a real-time automated system; **85%** efficiency gain, **90%** error reduction, full digitisation, **24/7** monitoring.
- **International FMCG:** Delivered end-to-end implementation for international clients - remote discovery, cross-timezone coordination, and go-live with no on-site presence.

EDUCATION

K.J. Somaiya College of Engineering, Mumbai

Bachelor of Technology in Computer Science

June 2016 – June 2020

CGPA: 8.5/10.0
